PROFESSIONAL SUMMARY

B.Tech Computer Science graduate with professional experience as a Quality Analyst at iEnergizer, supporting the Urban Company process since January 2025. Experienced in customer experience auditing, DSAT and AHT analysis, quality monitoring, Business Query identification, root-cause analysis, and process improvement. Strong working knowledge of MS Excel, Google Sheets, and SQL, supported by a technical foundation in Java, React, JavaScript, MySQL, and web development. Brings a data-driven approach to identifying operational gaps, reducing errors, improving customer experience, and supporting business performance, along with team management and leadership skills.

PROFESSIONAL EXPERIENCE

iEnergizer — Quality Analyst January 2025 – Present

Urban Company Process

- Conduct quality audits of customer interactions to identify compliance, communication, and service gaps that affect customer experience.
- Perform DSAT audits to identify recurring drivers of customer dissatisfaction and highlight actionable improvement areas.
- Analyze AHT performance to identify handling-time inefficiencies while maintaining required quality standards.
- Use advanced MS Excel capabilities to organize, validate, analyze, and interpret quality and operational data.
- Use SQL for data extraction, validation, and analysis to support quality and operational requirements.
- Identify Business Queries (BQ) and recurring process issues, helping teams understand patterns and operational pain points.
- Identify process errors and quality gaps, investigate root causes, and communicate findings to relevant stakeholders.
- Recommend practical process improvements aimed at reducing repeat errors, improving customer experience, and increasing operational efficiency.
- Collaborate with operations and support teams to identify improvement opportunities that contribute to process performance and business growth.
- Use Google Sheets to track audits, share reports, and collaborate with teams on quality data.
- Apply team management skills to coordinate daily quality tasks and support team members in meeting targets.
- Show leadership by guiding the team on quality standards and driving process improvement initiatives.

CORE COMPETENCIES

Quality: Quality Auditing, Customer Experience, DSAT Analysis, AHT Analysis, Quality Monitoring

Process: Root Cause Analysis, Process Improvement, Error Identification, BQ Identification, Process Excellence

Data: MS Excel, Google Sheets, SQL, Data Validation, Trend Analysis, Operational Reporting

Leadership: Team Management, Leadership

TECHNICAL SKILLS
